
TechAsia Mechatronics Pvt. Ltd. Empowering Innovation in Electronics & Industrial Automation

Established: 2016

Industry: Electronics Manufacturing & PLC Automation

Company Overview

TechAsia Mechatronics Pvt. Ltd. is a trusted name in the field of **electronics manufacturing and industrial automation**. Since its inception in **2016**, the company has steadily grown into a recognized player, delivering cutting-edge solutions for a wide range of industries, including manufacturing, process control, automotive, packaging, and more.

At TechAsia, we specialize in the **design, development, and production of electronic systems** and **custom automation solutions** using advanced PLC technologies. Our aim is to help clients increase productivity, reduce operational costs, and future-proof their operations with intelligent automation.

Core Competencies

- **Electronics Manufacturing**
PCB design, assembly, testing, and prototyping of electronic systems with high quality standards.
 - **PLC Automation**
End-to-end industrial automation solutions using PLCs, HMIs, and SCADA systems for process and machine control.
 - **Custom Control Panels**
Design and fabrication of control panels for industrial and commercial applications.
 - **System Integration**
Seamless integration of automation solutions with existing machinery and IT infrastructure.
 - **R&D and Product Development**
Customized hardware and firmware development tailored to unique client requirements.
-

Why Choose TechAsia?

- Over **8 years of industry experience**
 - Strong in-house **engineering and R&D team**
 - Commitment to **quality, reliability, and innovation**
 - Flexible and **customizable automation solutions**
 - Timely delivery and strong **after-sales support**
-

Industries Served

techAsia
Mechatronics Pvt Ltd

- Manufacturing & Assembly
 - Process Automation (Food, Pharma, Chemical)
 - Automotive
 - Packaging & Material Handling
 - Energy Management
 - Water Treatment Plants
-

Vision

To be a leading force in smart manufacturing and automation, shaping the future of industrial efficiency and innovation.

Mission

To provide reliable, scalable, and innovative electronic and automation solutions that empower industries to perform at their best.
